For delivery of ice-cream, frozen foods, short shelf life products

- POWER SUPPLY
12VDC / 230VAC

- AUTO - DEFROST

- PRECISE
TEMPERATURE
INDICATION
DOWN TO 0.1°C

- PERFECT
ISOLATION

Cooling and freezing **Cool Boxes** are portable chambers with a refrigeration unit for any type of delivery vehicle. The usage of a cool box allows for seasonal transport of products in a controlled temperature range from 20C to -20C. The **Cool Box** can be also used as a free-standing cooling or freezing chamber. The dimensions of the **Cool Box** are adjusted to the size of the car. The device can be used in several different cars from the fleet and its reloading is simple. **CoolBox** can be power supplied from the vehicle's 12/24 DC battery or 230 V AC mains. Thanks to this **Cool Box** can cool down during drive and when stationary.
